

Special remarks

Panel sizes Maximum useable finished panel sizes, after all four panel edges have been trimmed off.	Vintago, Vintago-Reflex, Avera: Only available in 8 mm thickness.	Gravial: Only available in 12 mm thickness.	Nobilis, Terra: These 12 mm panels are only available in size 2510 × 1250 mm.
Maximum useable finished panel sizes, after all four panel edges have been trimmed off.	Because 930 mm and 1250 mm panels are produced from different production batches, we advise to not intermix the panels on the same facade as slight color discrepancies may exists.

General information

The various finishes and colours allow the unique character of the Swisspearl panels to be expressed in an almost endless diversity. The carefully chosen colours, emphasize the unmistakable aesthetics of the material.

CARAT	Unique natural look and timeless beauty. The translucent lightly pigmented finish adds a distinguished expression.
GRAVIAL	Unique interplay of light and shadow. The linear, geometrical grooved surface offers countless options for making a special statement.
VINTAGO	Naturally authentic, rough and unique. The sanded surface highlights the purity of the fibre cement panel.
VINTAGO-REFLEX	Rough, lively with a shiny look. Vintago-Reflex has a sanded surface combined with a reflective surface giving a slightly rough, yet lively, shiny look.
avera	Authentic and vibrant appearance. The transparent coating lets the original natural look of the fibre cement shine through.
REFLEX	Shiny look with metallic character. The reflective surface coating gives the panels a sophisticated look.
NOBILIS	Authentic fibre cement look. The translucent lightly pigmented surface highlights the fibre cement texture in its natural beauty and elegance.
TERRA	Earthy and warm atmosphere. The finely coordinated colours are a reminiscent of earth tones and gives the building envelope an earthy, natural look.
PLANEa	Fresh and colourful creativity. The matte and smooth finish emphasizes the clear, bright and strong colours for an overall intense appearance.
ZENOR	Zenor has an opaque coating and creat a simple elegance, due to its homogeneous surface.
PATINA ORIGINAL	Lightly sanded, it stylishly showcases the character of the material. Their structure allows the fibre and the strong character properties of the raw materials work.
PATINA ROUGH	The rough and sandblasted surface creates a varied appearance with many facets.
PATINA INLINE	Light and shadow in the rhythm of time. Linear milled indentations create a dynamic appearance that changes depending on the time of day and viewing angle.

Natural range:

Largo offers a great number of natural colors and surfaces. Most of the facade boards are through-colored featuring some individual colour schemes from colorful opaque to noble translucent and natural transparent coatings, respecting the mineral appearance of fibre cement. These facade boards overall visual impression is retained over time, independent of the environmental influences thus adding some stability in the architecture.

Authentic range:

Swisspearl Patina design line is a range of authentic, through-coloured facade boards with unique features. Each facade board is as individual as the nature itself. Each facade board comes with slight variations in structure and surface to accommodate the demands from architects and builders across the world, who are looking for a characteristic texture and a vibrant expression. These facade boards will patinate beautifully over time, adding an aesthetic look to the building design with some unique and subtle variations on the surface.

High-Resistant coating:

All Carat colours available with HR-Coating or F-Coating. R-Coating is available for all colours except Ivory and Limestone colours.

The printed colours may differ from the original shade of the colour. To see the exact colour, and when matching up colours on adjacent parts of a building, one must use the original panel samples. The natural ingredients used in the fibre cement panels will to some extent determine the unique character of the material. The intensity and colour tone may vary slightly depending on the production batch.
